

**Mary Hanson**

Test Engineer

**Ronnie Killough**

Project Manager

**Don Kolinski**

Web Developer

**Florine Lehtinen**

Financial Analyst

## Ronnie Killough

he/him

As the **Project Manager**, I manage a great team of engineers, technicians, business analysts, and administrative staff to ensure that PUNCH is completed on time and within budget while meeting all of its mission requirements.

Motivated, Task-Oriented, Curious, Detail-oriented, Organized

### FUN SUN FACT

The Sun emits "white light", which contains ALL of the colors. A prism can "split" sunlight into all colors, but it won't show the "color" black because it's not really a color, but the absence of light.

### WORDS THAT HELP GUIDE ME

"Have I not commanded you? Be strong and courageous. Do not be terrified; do not be discouraged, for the LORD your God will be with you wherever you go." - Joshua 1:9

### INSPIRING ANIMAL

Even though I'm more of a cat-person, **dogs** inspire me because they are always loyal and happy to see you.

## Mary Hanson

she/her

As a **Test Engineer** I do experiments to help ensure the mission's three Wide Field Imagers (WFIs or "Wiffys") can operate well in the space environment. The "Wiffy" instruments are designed to track "space weather" between the Sun and Earth!

Curious, Happy, Animal-lover

### FUN SUN FACT

The Sun is the only star in the Solar System, but it is one of a 100 billion stars in our galaxy!

### WORDS THAT HELP GUIDE ME

"Anyone who has never made a mistake has never tried anything new."  
-origins unknown

### INSPIRING ANIMAL

Like a **bee** working together with its colony, I collaborate with other engineers and scientists to ensure our work gets done on time.

## Florine Lehtinen

she/her

As a **Financial Analyst**, I help the team manage the PUNCH budget. I plan and analyze how the project money is spent.

Positive, Creative, Diligent

### FUN SUN FACT

Beautiful Northern Lights can appear in the night sky after fast-moving material from the Sun hits and interacts with Earth's magnetic field.

### WORDS THAT HELP GUIDE ME

"Don't take yourself too seriously. Be the person who brings joy, humility and fun, even as you strive to reach difficult goals and make your difference."  
-Brendon Burchard

### INSPIRING ANIMAL

**Otters** are positive, focused, and mix well with different personalities - helpful traits as I share information with diverse people on the PUNCH team.

## Don Kolinski

he/him

As a **Web Developer** I designed and coded the PUNCH website to help share our NASA mission with the world. I also get to create cool things like these trading cards!

Animal-lover, Creative, Outdoorsy, Curious

### FUN SUN FACT

Ordinary stars, like our sun, perfectly balance the outward pressure from nuclear fusion in their cores and the inward pull of gravity from their huge mass.

### WORDS THAT HELP GUIDE ME

It's good to be open-minded, but when someone tells you to believe something without evidence, don't open your mind so much that your brain falls out!

### INSPIRING ANIMAL

**Ravens** are curious, playful, intelligent, and adaptable. These traits are important to doing my web work well. Plus, we are both croaky singers!
