

DANCING UP a SOLAR STORM – VIDEO CREDITS (as they appear at end of video)

Produced by: The Outreach Program of the NASA PUNCH Mission
Directed, Edited, Choreographed, Danced by: Alexandra Lockhart
Director of Photography: Ryan Brooks, Flying Giant Productions
Music Composed by: Dr. Brian House 'Perihelion' Data Sonification of Parker Solar Probe FIELDS Instrument Data
Intro Music: *A Brief Encounter*, by Nathan Wheeler
Heliophysics Movement Tasks Conceptualized by: Alexandra Lockhart

Science Education Consulting, Text and Script Editing

Dr. Cherilynn Morrow, PUNCH Outreach Director

Science Consulting

Dr. Craig DeForest, PUNCH Principal Investigator, Southwest Research Institute

Dr. Heather Elliott, PUNCH Co-Investigator, Southwest Research Institute

(original inspiration for use of veils to represent solar features)

Dr. Sarah Gibson, PUNCH Project Scientist, High Altitude Observatory

Dr. Elena Provornikova, PUNCH Co-Investigator, Johns Hopkins Applied Physics Laboratory

Dr. Nicki Viall, PUNCH Mission Scientist, NASA Goddard Space Flight Center

Dr. Anna Malanushenko, PUNCH Mission Scientist, High Altitude Observatory

Dr. Alexandros Chasapis, Research Scientist, Laboratory for Atmospheric and Space Physics

Image and Visualization

NASA/Goddard Space Flight Center Scientific Visualization Studio, Conceptual Image Lab

Virginia Butcher (SSAI), Scott Wiessinger (USRA), Genna Duberstein (USRA), Tom Bridgman, Walk Feimer

NASA Solar Dynamics Observatory (SDO)

NASA STEREO Mission

Time-lapse of Solar Convection: National Science Foundation's Daniel K. Inouye Solar Telescope

PUNCH Simulated Data of Coronal Mass Ejection, provided by Chris Lowder, Southwest Research Institute

Convective Motion GIF, PBS Digital Studios (retrieved at GIFPHY.com on 8 Oct 2024)

GAMERA Videos of Coronal Mass Ejections, provided by Dr. Elena Provornikova

GAMERA Videos of Solar Wind, provided by Dr. Evangelia Samara

Aurora Videos provided by Dr. Raphael Attiè (flat) and Duke Johnson (fisheye),

Crew Earth Observations group at NASA Johnson Space Center, ISS

Total Solar Eclipse, Corona images: Miloslav Druckmüller, Peter Aniol, Jan Sládeček, Andreas Möller

Sun cut-away diagram provided by: Don Kolinski, High Altitude Observatory

Solar Loop with Horseshoe Magnet, Stanford Solar Center

Special 'Thank you':

Ibeya Alif (formerly Briana Ingermann) (field testing, review, and team-building)

Claudia Powell and Dave Dooling (early concept video development)

Rachel Vara, Girl Scouts of Southwest Texas (field testing and review)

Dave Dooling (copy editing of text)

Dr. John Keller, Fiske Planetarium, University of Colorado

Nina Byers, Fiske Planetarium, University of Colorado

Superior Elementary School and Alison Bagli, field testing

Dr. Nicki Viall (and children), review and testing

Dr. Sarah Gibson, review and testing
