

3D Printed Petroglyph Credits

- ❑ 3D Petroglyph Tactile STL files created by Caileigh Hudson and Chris Gaines, modified by Will Harris and Kai Hughes
- ❑ 3D printing instructions and website copy written by Kai Hughes
- ❑ Background image of this slide created by Kai Hughes, inspired by a photo of Chaco Canyon taken by J. Ninneman
- ❑ This project would not have been possible without the help of Zack Jacobson-Weaver and the maker space he directs, the Blow Things Up Lab on CU Boulder campus.
- ❑ Special thanks to the PUNCH outreach team, Cherilynn Morrow, Dr. John Keller, and Dr. Tom Yeh for their guidance in creating the tactiles.
